EDUCATION

RMD Engineering College, Surampalem **2024 - 2028**
B.E. Computer Science and Engineering *CGPA - 7.55*
Sri Chaitanya Junior College, Kakinada **June 2021 - May 2023**
BIEAP , MPC *Score: 925/1000*

SKILLS AND PROFICIENCIES

Languages: Java (Primary), Python, C, C++
Frontend / Backend: React, HTML, CSS, JavaScript — Node.js, Express.js
Infra & Tools: Docker, Docker Compose, REST APIs, Microservices, JWT Auth, Git/GitHub, Postman
Databases: PostgreSQL, MongoDB, MySQL - Indexing, Normalization
CS Fundamentals: DSA, OS, CN, DBMS, OOPs, Collections, Multithreading.
Interests: System Design, Cloud Computing (AWS), Machine Learning.

WORK EXPERIENCE

Technical Hub Pvt Ltd **May 2025 – June 2026**
Trainee *Surampalem, AP*

- Completed one year of intensive Full-Stack Development (FSD) training covering frontend, backend, database integration, and deployment workflows.
- Developed responsive and functional web applications by implementing user interfaces, server-side logic, and database connectivity.
- Deployed and managed web applications while applying version control, debugging, and end-to-end development practices.

PROJECTS

PolicyGuard AI | Python, NLP, LLM, REST API **2026**

- Built an AI-powered policy analysis platform across web, browser extension, mobile, and desktop applications, processing 500+ policy documents with 92% accuracy and reducing manual review time by 60% across 8 policy categories.
- Engineered LLM-based Q&A, key-information extraction, and REST API integration for 10+ document types, enabling real-time policy insights and reducing decision turnaround time by 45%.

Payment Gateway System | Node.js, Express, PostgreSQL, React, Docker **2026**

- Built full-stack UPI & card payment gateway processing 1,000+ transactions at 99.8% uptime with a strict payment state machine (processing → success/failed).
- Dockerized microservice architecture cut deployment setup by 70%; backend optimizations reduced API response time by 40% and tripled throughput under load.

Multi-Tenant SaaS Platform | Node.js, React, PostgreSQL, Docker Compose **2026**

- Architected shared-database multi-tenancy for 50+ concurrent tenants with strict `tenant_id` isolation and 4-level JWT/RBAC, achieving zero unauthorized-access incidents across 200+ users.
- Implemented Docker Compose one-command deployment, reducing environment setup time from 45 minutes to under 2 minutes.

ACHIEVEMENTS

* Selected as a Tech Fellow at RMD Engineering College through competitive national selection - advanced DSA, algorithm optimization, and competitive coding.

- **AIML Branch Topper** — 9.24 SGPA for the semester.
- **LeetCode:** 350+ DSA problems solved (Peak Rating: 1442) | **GFG:** 300+ problems (Rating: 1436) | **CodeChef:** 200+ problems.
- **HackerRank:** 5-star badges in C, Python, Java, and SQL.

CERTIFICATIONS

- **NPTEL:** Database Management System, Fundamentals of Artificial Intelligence, Deep Learning
- **AWS:** AWS Certified AI Practitioner, AWS Academy Graduate – Cloud Foundations
- **MongoDB:** MongoDB Certified Associate Developer
- **GitHub:** GitHub Foundations
- **Pearson:** IT Specialist - HTML and CSS
- **Oracle:** Java Certified Foundations Associate, Oracle Certified Foundations Associate - Database
- **Cisco:** HTML Essentials, CSS Essentials, JavaScript Essentials 1, JavaScript Essentials 2, Python Essentials 1
- **Udemy:** Microsoft Azure Hands-On Training (AZ-900, AZ-104, AZ-305)
